

ULTIMATE III

The whole house water conditioner you'll love for all that it provides and prevents.

The twin demand meter systems monitor the amount of treated water used daily, regenerating only when needed. The **Ultimate III Water System** is unsurpassed in

water equipment today. Immediately you will see and feel the difference that conditioned water will make in your everyday use.

Exclusive System Features

- Alternating Twin Tank Control
- Virtually maintenance free; "no time clock"
- Removes hardness, iron and filters
- Continuous conditioned water supplied 24 hours a day
- System uses soft water to regenerate
- Soft bright clothes
- Naturally smooth skin; shiny, silky hair
- Clean sparkling dishes
- Fast easy cleaning
- Less soaps and cleaners
- Carbon cap
- 17 G.P.M. flow rate
