

# Carbon Block Model CB-10 Drinking Water System

*Designed to feed the cold side of your own faucet or Install with separate faucet  
(designer finishes available).*

## Exclusive Sub Micron Filtration Rating

- Carbon Block Cartridges are tested and certified 0.5 Micron nominal for removal of taste, odor, lead, cysts and chlorine
- System comes in many sizes for a variety of applications
- Rugged, durable housing stands up to many years of heavy use
- Great for installation at multiple locations
- Filters can be easily changed by homeowner
- Affordable pricing for the budget minded customer
- Removes the need for bottled water

*During normal Filtration, untreated water enters the housing through an inlet at the top of the housing. As the water seeps down through the filtering media, foreign particles, unpleasant odors and taste are trapped and absorbed, producing treated water right at your tap.*
