

# The Dual Media Advantage

*The latest, most innovative, most efficient distribution system!*

*Protects you and your home from the harsh effects of hard water and chlorine.*

**Standard way...**

**Up to 30% less  
backwash is  
required.**

**Best way!**

## Two systems in one

- Dual media advantage eliminates need for additional tanks and valves while extending life for both resin and carbon
- Higher flow design maximized efficiency and minimizes water requirements
- Increased softening capacity, due to improved flow through media
- No channeling of media, providing a cleaner more efficient system
- Environmentally friendly, reduction in required backwash times due to improved bed lift at lower flow rates

New distributor plate technology creates a spiraling lift on media which increases softening capacity with up to 30% less water used during backwash

  
**AFFORDABLE WATER**  
CONDITIONING • SOFTENING • PURIFICATION
